MOTHER FINDS CHILD DEAD IN HIS CRIB

Lionel Girouard, 8 Months, Was Having Customary Nap and Did Not Awaken.

About 11:30 o'clock Tuesday morning Lionel Girouard, the eight months old son of Mr. and Mrs. Pierre Girouard of 7 Elm street, was found dead in his crib by his mother who had gone to the crib to see if the child was still sleeping. The mother, who was greatly shocked by her discovery, notified the family physician, who after viewing the child, notified the medical examiner, Dr. L. I. Mason. Mrs. Girouard told the medical examiner that the child had slept well during the night and had awakened in seemingly good health and spirits. The mother left the child for a short time to attend to her household duties and when she returned to the

crib discovered that the child was dead. After hearing the facts in the case the doctor pronounced death due to some unknown cause as there were no signs to indicate that the child had met his death from any unnatural cause.

Welcomed Home.

Upon her return to this city after an absence of seven weeks, Mrs. Pierre Bergeron of 125 Walnut street was given a pleasant surprise party at her home Monday evening. Many musical selections were enjoyed and a buffet lunch was served during the evening.

Tree Blown Down.

Sometime during the early part of Tuesday afternoon a large tree standing in the lot just south of the Camp Ground was blown down directly across the road. The top of the tree extended onto the trolley tracks but not enough to delay traffic. At the point where the tree fell the trolley tracks in not filled in and this made it very risky for vehicles that were forced to drive over the tree. First Selectman E. P. Chesbro was notified of the affair and got in touch with the tree warden who, later in the afternoon had the road open for traffic.

True Blue Circle Meets.

Many attended the meeting of the True Blue Circle of the Baptist church Tuesday afternoon. Following the meeting which was called together at 4:30 there was a supper for the members of the circle which was greatly enjoyed. At the meeting plans for the work for the coming winter were discussed and other matters were talked over.

THREE MEN BURNED IN ANDOVER FIRE

Pipe of One Started Blaze in Which James Upton, Fred Ducharme and Wallace Radey Perished.

Andover was visited by a disastrous fire Monday night in which three men lost their lives. The fire which was discovered shortly after eleven o'clock by members of the Andover Grange who were returning to their homes after a meeting in the town hall, destroyed the building known as the Inn and threatened a number of nearby buildings. The fire which was caused by a pipe of one started in the barn at the time of the fire.

The ringing of the Congregational church bell brought a crowd to the fire and in a short time a bucket brigade had been formed which bent every effort to save the other buildings. The furniture in these nearby buildings was removed to a place of safety. A freight train that had pulled into the station just before the fire was discovered was of great assistance in keeping the roof of the station from catching fire.

It was not discovered that any persons had lost their lives in the fire until early Tuesday morning when a party of searchers discovered the bodies of the three men. The medical examiner was notified and on arriving told that the above three men were missing. Identification of the bodies was made possible through articles found on the clothing and by marks on the bodies. Permission was given for their removal.

Chow who could be learned of the condition of the men early in the evening.

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist a tablespoonful of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. The famous salts are made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delicious effervescent lithia water drink which everyone should take now and then to keep their kidneys clean and active. Try it, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.
